

Lab-3 Ex6 - Sci Bo

Sic bo is a game of chance of ancient Chinese origin played with three dice. https://en.wikipedia.org/wiki/Sic_bo

Three dice are thrown in Sic Bo. When the sum is between 11 and 17, it is "BIG". When the sum is between 4 and 10, it is "SMALL". However, when three dice are the same, it is "Triple". Determine the result of the game, based on the three dice. You can assume the input numbers are valid.

Input:

Three numbers between 1 and 6.

Output: One of the following:

BIG

SMALL

Triple
